This paper is changing to the new format, and will be uploaded as soon as.

IJOCIT

Welcome to:
Int. J. of Comp. & Info. Tech. (IJOCIT)

Scopes:

Fundamental
Software & System
Network & Infrastructure
Clouding and Computing
Big Data & Internet of Things
Internet & Semantic Web
Bioinformatic & Biosystem
Artificial intelligence
Information Technology
Security

About

The International Journal of Computer and Information Technologies (IJOCIT) is an open access, refereed and peer reviewed international journal with a primary objective to provide the academic community and industry for the submission of original research and applications. We invites authors to submit original and unpublished work that communicates current research on computer science and information technologies regarding the theoretical and methodological aspects, as well as various real-world applications in solving various problems. IJOCIT welcomes the submission of manuscripts relating to any branch of the theory of computer sciences, computer engineering, information technologies and its applications in business, industry and other topics. All submitted papers should report original and unpublished experimental or theoretical research results, and they will be peer-reviewed. Papers submitted to the journal should meet those criteria and must not be under consideration for publishing elsewhere.

The IJOCIT is currently indexed in:
